

WHO ARE WE ?

Vaccination Information Serving Australia (VISA), is a non-profit information service, administered by volunteers and funded by memberships and donations.

WHY ?

VISA formed on February 11th, 1997 in response to people seeking further information about vaccination (including the risks), and also about health.

WHAT DO WE DO ?

We support people to make informed choices about vaccination by providing up-to-date information and resources. VISA also works to raise awareness about important issues that relate to vaccination and to promote information about health, healing and the immune system.

HOW ?

The services we provide include:

- *Phone information service*
- *Extensive range of books and DVD's for sale*
- *Regular public information seminars*
- *Quarterly newsletters with latest information and developments*
- *Monthly parent support meetings at metropolitan and regional locations*
- *A comprehensive resource library available to members*

Vaccination is not compulsory in Australia and there are no financial penalties for not vaccinating your child or children. It is important that you make an informed decision.

Routine vaccination may begin in the first few hours of a child's life.
It's Your Child.
It's Your Choice.
